4.30pm	Conference Close

Wednesday 3rd September 2014

9.00 – 12.00pm	
Conference Tour - \$70.00 per person (Registration and payment for the tour is via the conference registration forms only)	
Tour 1	<p>Walking Tour - Bank to Bentham Meet in the Intercontinental Adelaide hotel lobby</p> <p>Tour Description: Linking the large scale urban infrastructure projects of Victoria Square and the Adelaide Oval, this walking tour will explore the route between them. Identified through the 5000+ An Integrated Design Strategy for Inner Adelaide, this route is currently being planned and developed as a safe and vibrant green boulevard between the riverbank and the Central Markets, offering an alternative route between these cultural nodes.</p> <p>Urban realm upgrades have offered an intimate and safe route for pedestrians and cyclists, through street treatment such tree-lined footpaths, public art and street furniture. Ground level activation has transformed under utilised building stock into a fine grain tapestry of retail and dining options, interwoven with small scale businesses and upper level mixed use developments.</p>
Tour 2	<p>Walking Tour - Greater Riverbank Precinct – Adelaide's Great Park Meet in the Intercontinental Adelaide hotel lobby</p> <p>Tour Description: Renewal SA is currently working in partnership with the Adelaide City Council and other State Government agencies to prepare a roadmap for the renewal of the Greater Riverbank Precinct over the next 20 years. Much of the development is already underway.</p> <p>This tour will cover the precinct stretching from Hackney Road to Bonython Park, encompassing the Botanic Gardens, Adelaide Zoo, Adelaide Oval, SAHMRI, Convention Centre and Festival Centre – and all that lies along the River Torrens, with sporting fields, universities, cafés and restaurants, walking, running and cycling trails.</p>
Tour 3	<p>Walking Tour - Bowden – Redefining City Living</p> <p>Tour Description: Since Renewal SA acquired the 16.3 ha site Bowden has begun its transformation into a vibrant inner-city destination blending history and culture with high quality architecture and sustainability.</p> <p>Bowden redefines space and living, building a community where people can live without a car yet stay connected in every way. 3,500 residents will soon call this place home, availing themselves of the cafes, restaurants, shops, offices, parks and gardens on their doorstep.</p> <p>This is a charismatic, commercially-viable neighbourhood where flexibility is key to addressing market shifts and demographic changes.</p>

POSTER PRESENTERS

Creative approaches to regional development: a rural Victorian case study

Ms Mitra Anderson-Oliver, Consultant, SGS Economics and Planning, VIC

Designing for Productivity - Design tools for a healthy community

Ms Robina Crook, Associate, HASSELL, WA

Ideas for Compact Living: An Architectural Exploration of Occupant Behaviours to Compact Housing

Ms Melinda Dodson, Director Melinda Dodson Architects, PhD Candidate University of Canberra, ACT

What lies ahead for the traditional shopping district and land use?

Mr Ajith Kuruvilla, The University of Melbourne, VIC

Living Building Challenge in Australia: Lessons learned from the Sustainable Buildings Research Centre

Mr Weston Lewis, University of Melbourne, VIC

Framework For Land Value Capture From The Investment In Transit In Car Dependent Cities

Mr James McIntosh, Integrated Land Use & Transport Planning Consultant

General Systems Theory and the Eco-social© Environment

Dr Yaacov, John B. Myers , Director Clinical Science research, Wellspring's Universal Environment P/L, VIC

2km Safe & Healthy Zone Travel to School Framework

Mr Damian O'Sullivan, Principal Officer, Ipswich City Council, QLD

Family-friendly urban areas – trends, drivers and characteristics

Dr Brett Robertson, Principal Planning Officer, Queensland Department of Education, Training and Employment, QLD

Planning in the face of uncertain futures: why an external explorative scenario planning approach should be applied to complex waterfront urban renewal projects

Mr Tom Shield, Urban Designer, Tract Consultants, VIC

Public Art, Place-making and Social Capital: An Adelaide Case Study

Ms Serena Somers, University of South Australia, SA

Disaster risk reduction, resilience and abundance, a biocapacity model for urban design

Mr Peter Stevens, Lecturer, University of Newcastle, NSW

Testing a bike-sharing system on the Gold Coast

Miss Lorene Texier, HRD student, Griffith University- Insa de Rennes, QLD

TURF WARS: A rise in the battle over public space

Mr David Vago, Principal, Habitation, NSW

7 Senses Cities

Mr Tobias Volbert, Business Development Manager / Landscape Architect, 7 Senses Foundation , QLD

Terrace 62: A case study of successful Architect / Developer collaboration to provide low-cost housing

Ms Heather Wasley, Master of Philosophy Candidate, The University of Adelaide, SA

3 G City Model and city transformation in China

Prof Jianying Yuan, Shanghai Tongji Urban Planning & Design Institute, CHINA

Mr Jue Wang, Architect, CHINA
